MALMÖ, Sweden, June 17, 2026 (GLOBE NEWSWIRE) -- Oatly Group AB (publ) (Nasdaq: OTLY) ("Oatly" or the "Company"), the world's original and largest oat drink brand, today announces the second chapter of its global collaboration with Nespresso, building on the success of their 2025 partnership to place iced, plant-based coffee firmly at the center of summer drinking culture.

The renewed partnership now introduces four curated iced coffee recipes and signature drinks, created to show how oat drinks together with the Nespresso x Oatly Barista Edition blend, elevate iced coffee experiences at home and across food service.

Designed specifically for iced preparation, the recipes spotlight the versatility of oat drinks in cold coffee moments, from refreshing everyday serves to indulgent signature-style beverages. Together, Oatly and Nespresso aim to inspire consumers and coffee professionals alike to rethink iced coffee as more than a seasonal trend - but as a defining part of modern coffee culture.

The 2026 collaboration expands into 11 additional cities worldwide, bringing the total footprint to 26 markets, and reinforcing the strength of a repeat partnership grounded in proven consumer demand. From hot to iced, winter to summer, the collaboration continues to broaden coffee usage occasions while strengthening relevance across channels.

As consumers increasingly embrace iced beverages and plant-based choices, Oatly and Nespresso are positioning themselves at the forefront of the shift, setting the agenda through credible innovation and shared expertise.

Karsten Ranitzsch, Global Head of Coffee at Nespresso, said:

"At Nespresso, taste is always at the heart of everything we do. As more coffee lovers explore iced recipes and plant-based pairings, we see an exciting opportunity to reimagine how great coffee can be enjoyed, especially during warmer months.

"Our continued partnership with Oatly brings together two brands that understand

how people really drink coffee today. By extending our Barista Edition blend into iced and signature-style recipes, we're giving coffee lovers new ways to create exceptional experiences - all summer long."

Toby Weedon, Barista Development Director at Oatly, said:

"Oatly has always been about pushing beverage culture forward, and iced coffee is one of the most exciting spaces right now. Oatly Barista Edition performs just as beautifully cold as it does hot, enhancing flavor, texture and balance without overpowering the coffee."

"Working again with the experts at Nespresso allowed us to take everything we learned from our first collaboration and expand it further - into more cities, more occasions and more ways for people to enjoy oat-based coffee. This partnership shows how oat drinks continue to lead coffee trends, from the café to the kitchen."

The Nespresso x Oatly Barista Edition blend and accompanying iced coffee signature drink recipes will be available for a limited time through Nespresso's official channels, online and in boutiques, with activations rolling out across select cities globally.

About Oatly

We are the world's original and largest oat drink company. For over 30 years, we have exclusively focused on developing expertise around oats: a global power crop with inherent properties. Our commitment to oats has resulted in core technical advancements that enabled us to unlock the breadth of the dairy portfolio, including alternatives to milks, ice cream, yogurt, cooking creams, spreads and on-the-go drinks. Headquartered in Malmö, Sweden, the Oatly brand is available in more than 60 countries globally.

About Nestlé Nespresso SA

Nestlé Nespresso SA is a pioneer and is widely regarded as one of the top references in the field of high-quality portioned coffee. The company works with more than 168,550 farmers in 18 countries through its AAA Sustainable Quality™ Program to embed sustainability practices on farms and the surrounding landscapes. Launched in 2003 in collaboration with the NGO Rainforest Alliance, the program helps to improve the yield and quality of harvests, ensuring a sustainable supply of high-quality coffee and improving livelihoods of farmers and their communities.

In 2022, Nespresso achieved B Corp™ certification – joining an international movement of over 9,700 purpose-led businesses that meet B Corp's high standards of social and environmental responsibility and transparency.

Headquartered in Vevey, Switzerland, Nespresso operates in 96 markets and has over 14,000 employees. In 2024, it operated a global retail network of 818 boutiques. For more information, visit the Nespresso corporate website: www.nestle-nespresso.com.

achieve or sustain profitability, including due to elevated inflation and increased costs for transportation, energy, and materials; our future business, financial condition and results of operations may be adversely affected by reduced or limited availability of oats and other raw materials and ingredients, which meet our quality standards, that our limited number of suppliers are able to sell to us; a failure to obtain necessary capital when needed on acceptable terms, or at all, may force us to delay, limit, reduce or terminate our product manufacturing and development and other operations; the primary components of all our products are manufactured in our production facilities, and damage or disruption at these facilities has in the past harmed, and may in the future harm, our business; our brand or reputation may be harmed due to real or perceived quality, food safety, nutrition or sustainability issues with our products, which could have an adverse effect on our business, reputation, financial condition and results of operations; food safety and food-borne illness incidents or other safety concerns have led to product recalls, and may materially adversely affect our business, financial condition and results of operations by exposing us to lawsuits or regulatory enforcement actions in the future, increasing our operating costs and reducing demand for our product offerings; failure by our suppliers of raw materials or co-manufacturers to comply with food safety, environmental or other laws and regulations, or with the specifications and requirements of our products, may disrupt our supply of products and adversely affect our business; we may not be able to compete successfully in our highly competitive markets; consolidation of customers, the loss of a significant customer or the decrease of sales from a significant customer, could negatively impact our sales and profitability; sales of our oatmilk varieties contribute a significant portion of our revenue and a reduction in such sales would have an adverse effect on our business, financial condition and results of operations; we continue to pursue largely an asset-light business model blending a heavy reliance on our co-manufacturing partners in addition to in-house capacity expansions where appropriate; our strategic partnerships with our co-manufacturers may not be successful, which could adversely affect our operations and manufacturing strategy; failure by our logistics providers to deliver our products on time, or at all, could result in lost sales; we may not successfully ramp up operations at any of our or our co-manufacturing partners' facilities, or these facilities may not operate in accordance with our expectations; if we fail to effectively expand our processing, manufacturing and production capacity through existing facilities or acceptable co-manufacturing partners as we continue to grow and scale our business to a steady operating level, our business, financial condition, results of operations and our brand reputation could be harmed; if we fail to develop and maintain our brand, our business could suffer; failure to develop or introduce new products or successfully improve existing products may adversely affect our ability to continue to grow; if we fail to cost-effectively acquire new customers and consumers or retain our existing customers and consumers, or if we fail to derive revenue from our existing customers consistent with our historical performance, our business could be materially adversely affected; consumer preferences for our products are difficult to predict and may change, and, if we are unable to respond quickly to new trends, our business may be adversely affected; if we fail to manage our future growth effectively, including maintenance of our workforce, our business, financial condition and results of operations could be materially adversely affected; we have recognized impairment charges for long-lived assets and other exit costs in connection with our production facilities, and we may need to recognize further costs in the future, which could adversely impact our business, financial condition and results of operations; we are subject to risks related to sustainability (including environmental, climate change and broader corporate social responsibility matters), which may materially adversely affect our business as a result of lawsuits, regulatory investigations and enforcement actions, complaints concerning our disclosures, impacts on our operations and supply chain (particularly in connection with the physical impacts of climate change), and impacts on our brand and reputation; we rely on information technology systems and any inadequacy, failure or interruption of, or cybersecurity incidents affecting, those systems may harm our reputation and ability to effectively operate our business; a cybersecurity incident or other technology disruptions could negatively impact our business and our relationships with customers; to remain competitive, we believe we will need to adopt artificial intelligence and other machine learning technologies; our customer agreements do not contain long-term commitments and do not require our customers to continue purchasing products from us and this may negatively impact our business or financial condition; we may face difficulties as we expand our operations into countries in which we have no prior operating experience; the strategic review of the Company's Greater China operations may not be successful; our operations in China could expose us to substantial business, regulatory, political, financial and economic risks; the international nature of our business subjects us to additional global economic and geopolitical risks; if we fail to comply with trade compliance and economic sanctions laws and regulations of the United States (the "U.S."), the EU and other applicable international jurisdictions, it could materially adversely affect our reputation and results of operations; some of our debt agreements contain a floating interest rate component and as a result, an increase in market interest rates will increase our future
